Others in attendance: Diane Romero, Caitlin Blomquist, Teresa O’Sullivan, Melissa Barker-Haliski

Meeting called to order at 3:00 pm.

1. New Committee Members from the PY1 class have been introduced: Phoenix Chan, Karrisa Xu

2. Approval of minutes from September 2020 Meeting (attached)
   - Change to make to minutes: Stephanie Friedman was in attendance.
   - Ryan motioned to approve the minutes with this change. Yvonne seconded the motion and the
minutes were approved.

3. Course applications:

Course Change Application

- **PCEUT 503 Principles of Drug Transport** (Wang)
  - Passing grade will be 1.7 for PharmD students and 2.7 for graduate students
  - Libin motioned to approve the course change with specified passing grades in the online format and in the syllabus. Kelly Lee seconded the motion. Course change application approved.

- **PHARM 534 Economic Evaluation in Health and Medicine** (Sullivan)
  - Dropping joint status with Health Services.
  - Ryan Hansen motioned to approve the course change application. Yvonne Lin seconded the motion. The course change application approved.

New Course Application

- **PHARM 551 Introduction to Drug Discovery and Development** (Barker-Haliski)
  - 2 credit course, plan to be launched in Winter 2021
  - Target audience is Undergrad and Professional students
  - **Change**: Melissa will update Evaluation Details to equal 100%.
  - **Change**: Lingtak is suggesting splitting the course to have PHARM 451 for undergraduate students and PHARM 551 for graduate students due to the differences in assessment and evaluation methods between the 2 groups of students. This will become two separate new course applications.
  - Libin motioned to approve the 2 new course applications- PHARM 451 and PHARM 551, respectively, with the above changes. Ryan seconded the motion. The new course applications approved and will be submitted to UWCC as 2 separate courses.

**APPE Course packs (O’Sullivan)**

- **PHRMPR 561 Core Community Pharmacy Advanced Pharmacy Practice Experience**
- **PHRMPR 562 Core Ambulatory Care Advanced Pharmacy Practice Experience**
- **PHRMPR 563 Core General Medicine Acute Care Advanced Pharmacy Practice Experience**
- **PHRMPR 564 Core Health System Pharmacy Advanced Pharmacy Practice Experience**
  - These 4 course applications cover the 4 core rotations for the APPE component in the Purple Curriculum. Each rotation is set to be 6-week long.
  - These are all credit/no credit courses. The courses are 7 credits each, for approx. 40 hours/week in the practice setting.
  - Jen D. motioned to accept all 4 course applications. Shelly Gray seconded the motion. PHRMPR 561, 562, 563, and 564 approved.

4. Final report from Task Force on Curriculum Threads for Purple Curriculum

- Recommended Threads:
  - Evidence-based inquiry and Decision-Making
  - Health, equity, advocacy, and leadership
  - Translating science to practice
- Curtis reminded the committee that according the ACPE accreditation standards, it is highly recommended that the identified curriculum threads be present throughout most of the PharmD curriculum. He will lead the Assessment Committee to (i) develop a mapping tool for these threads; and (ii) put together a longitudinal assessment plan for these threads across all courses.
- Lingtak motioned to accept Curriculum Threads report. Daniel Chukri seconded the motion. Curriculum Threads final report approved.
- Lingtak and Libin will present the report to the All-School Faculty meeting.

5. Follow-up: Standardization of passing threshold at 1.7 for Purple Curriculum

- Current grading policy: [https://sop.washington.edu/pharmd/student-resources/academic-professional-policies-procedures/grading-policies-and-procedures/](https://sop.washington.edu/pharmd/student-resources/academic-professional-policies-procedures/grading-policies-and-procedures/)
- Updating passing threshold from .7 to 1.7 for Purple Curriculum for both core and elective courses. If a student does not meet the minimum passing grade, a grade of 0.0 will be
given.

- UW undergraduate policy: A UW student is allowed to repeat a course once, with departmental permission.

- There is a question on how a course GPA is recorded and affect overall GPA if a student has to repeat the course. The GPA from all the courses, including courses with a non-passing GPA, will contribute to the student's overall GPA and appear on the transcript. According to the current policy in the PharmD program, if a course is repeated due to a previous non-passing grade, only the most recent grade (usually a passing grade) will be used to determine the student's cumulative GPA for academic progression.

- Brian Werth motioned to approve the standardization of the passing threshold. Yvonne Lin seconded the motion. Standardization of passing threshold approved.

The meeting adjourned at 4:48 pm.
