Awards and Recognition: UW School of Pharmacy Student Preceptor Experiential Advisory Committee (SPEAC)

Our School is committed to delivering excellent education through active engagement and collaboration with students and stakeholders. SPEAC is comprised of student representatives from PY2–PY4, preceptors who have demonstrated commitment, expertise, and leadership from various areas of practice, and Experiential Education staff and faculty.

This advisory group offers guidance, input and planning advice to the UW School of Pharmacy Experiential Education program (including Preceptor Development program, IPPE and APPE curriculum and evaluations).

We are deeply grateful for their commitment and service!
UW School of Pharmacy Curricular Innovation – by Peggy Odegard (Associate Dean for Professional Education)

As many of you are aware, we have embarked on a curricular innovation to outline the most empowering, effective learning curriculum and training experiences to help prepare the pharmacist of tomorrow. This process stems from the Strategic Plan developed by the school last year with extensive practitioner and preceptor input. If you'd like to learn more about the innovation process and get involved to share your ideas, please see our webpage link at https://sop.washington.edu/about/curricular_innovation/. Thank you for your ongoing input, ideas, and support!

Experiential Education Updates

- **Community Introductory Pharmacy Practice Experience (IPPE)**
  - Class of 2019 (PY2): 93 students in 57 community practice pharmacies over this past summer
  - Thank you to all the wonderful preceptors for your support and commitment to our students!

- **Institutional Introductory Pharmacy Practice Experience (IPPE)**
  - Class of 2018 (PY3): 86 students in 23 hospitals over the summer
  - Site availability for summer 2017 completed – Special thanks to all the site preceptors for sending in your availability!

- **Advanced Pharmacy Practice Experience (APPE)**
  - Class of 2016: 98 students completed a total of 861 APPEs
  - New APPE Evaluation Tool implemented this past summer
    - Preceptors can now print out the entire final evaluation form to discuss with the student BEFORE final submission:

From index page of the student final evaluation – go to ‘Click here to Print this Evaluation’

- Student achievement and APPE grading process
  - Preceptors are asked to use the APPE Assessment rubric to evaluate their student’s performance. The school will then determine whether the student receives credit for the course based on preceptor evaluation (i.e., grading responsibility falls on the school faculty and not on the preceptor). Please note that the APPE is a credit/no credit course. Students receiving ‘deficient’ in any area could potentially receive no credit for the course, but only after investigation and review by school faculty.
  - Students receiving ‘marginal’ in any competency area are asked by the school to reflect on
their performance and consider ways to improve.

- Preceptors should contact school ASAP when they have a student with possibility of receiving ‘deficient’ in any performance areas.
- NEW APPE Assessment rubric with descriptive rating categories: Exceptional, Competent, Marginal and Deficient

We want to hear your input and feedback on the new rating categories! Please complete this short survey (3 questions): https://catalyst.uw.edu/webq/survey/jenchang/318384

Preceptor Development

- ‘Health Science library resources for Preceptors’ Webinar – Thursday, 12/15/16 (12:00-1:00pm)

You are invited to a special Preceptor Development webinar by our wonderful UW Health Sciences Librarians!

Speakers:
- Andrea Ball, MLS, MSIM: Care Management and Population Health Librarian
- Frances Chu, MLIS, MSN: Clinical Liaison and Content Librarian
- Joanne Rich, MLIS: Informationist and Liaison for School of Pharmacy and UWMC/HMC Pharmacy Services

UW SOP Preceptors with Clinical/Affiliate Faculty appointment has full access to the protected Health Sciences Library resources. The speakers will discuss resources available to help you tackle challenging drug questions and show examples of how to search in PubMed and other databases.

Objectives of this webinar:
- Locate appropriate drug information resources in the Health Sciences library
- Search PubMed and other databases more efficiently to locate relevant articles

To join the webinar:
- Please click on the link to register for the webinar: https://uwtest.zoom.us/webinar/register/35ff8d2e91226742c5b9141539e44ee6
  After registering, you will receive a confirmation email containing information about joining the webinar.

- NEW Collaborative Education Institute (CEI) Preceptor CE Activities released this month!

Based on the preceptor profile updates completed this year, many of you included understanding learning styles and giving feedback as areas you would like to improve in: We are excited to share that CEI just released the following CE activities this month...

- Giving Effective Feedback: Beyond “Great Job”
- It’s a Match: Customizing Your Teaching to Your Student’s Personality and Learning Style

CEI Preceptor Development CE programs are available on our Preceptor portal:
- Go to UW SOP Preceptor portal
- Log in with your SITE pin – see ‘Preceptor Orientation and Development Opportunities’ at bottom of index page
- Directions for access can be found in the Preceptor portal
Preceptor Resources

- NEW UW School of Pharmacy (SOP) Preceptor website: Check it out at [https://sop.washington.edu/pharmd/experiential-education/preceptors/](https://sop.washington.edu/pharmd/experiential-education/preceptors/)

Here’s a list of resources and information available on the new website:

- **Preceptor Benefits:**
  - Become a UW SOP Clinical or Affiliate Faculty Member
  - Health Sciences Library access and orientation
- **Becoming a Preceptor:** Preceptor license requirements, site set-up and preceptor orientation
- **Preceptor Resources:**
  - Preceptor Portal
  - APPE and IPPE Resources
  - PharmD Curriculum Overview
  - Preceptor Development and CE
  - ASHP Preceptor Resources
  - Accreditation Standards and Resources
- **Preceptor Recognition:** Preceptor awards and winners

- **Site and Preceptor Report Cards and Student Comments Now Available**
  
  Student evaluations of sites and preceptors with comments are now available on the preceptor portal for your review.
  
  - Go to [UW SOP Preceptor portal](https://sop.washington.edu/pharmd/experiential-education/preceptors/)
  - Log in with your SITE pin – go to *Site Evaluations* and *Preceptor Evaluations* on the index page
