Bartell Drugs/University of Washington
PGY1 Community Pharmacy Practice Residency

About Bartell Drugs
64 Store Locations in the Puget Sound Area
Founded in 1890 | Family Owned and Operated
Dedicated to Superior Customer Service and Honest Business Practices

Residency Program Goals

• To advance the Resident Pharmacist’s education and training in drug therapy, disease state management, communication
  skills and to provide and develop innovative patient care programs in Bartell Drug Locations.

General Residency Program Information

• This program has attained ASHP-APhA accreditation.
• The residency program is a 12-month full time obligation.
• Residency will be tailored to match the background and career objectives of the resident, the goals of the Bartell Drugs
  Pharmacy Department and the goals of the University of Washington School of Pharmacy.
• Residency will be based at the Bartell Drugs Corporate Office in Seattle, WA. The resident will also provide patient care services
  from a selected Bartell Drugs location. Occasional travel to Bartell Drugs sites in the Puget Sound area will also be expected.
  o Resident will be provided a work area and computer in the Pharmacy Department at the Corporate Office.
  o While on-site at Bartell Drugs locations the resident will have access to a private counseling room (where available) for
    MTM consultations, immunization administration, and other vital sign monitoring as applicable.

Salary/Benefits

• The Resident Pharmacist will receive a stipend of $50,000 for the 12-month program.
• The Resident Pharmacist will receive 2 weeks paid time off (PTO) that will begin accruing on date of hire (time off to be agreed
  upon by the resident and the preceptor).
• The Resident Pharmacist will be an employee of the Bartell Drug Company and receive company benefits. Medical benefits
  will be provided through Bartell Drugs, and will start the first of the month after employment.
• The Resident Pharmacist will be reimbursed for travel and expenses (in compliance with the Bartell Drugs Travel Expense
  Policy) to attend professional meetings and presentations. Travel reservations and expense reports must be approved by
  the Bartell Drugs VP of Pharmacy Operations and Clinical Programs.

Selection Process

• All potential applicants should apply through the ASHP matching program (NMS Code 167015) no later than January 8, 2016,
  after which the Residency Program Director and Residency Preceptors will review applications.
• An interview may be required at the discretion of the selection committee.
• Results of the ASHP Match will be announced in March 2016.
Patient Care

• The Resident will provide patient-care services in the following areas:
  o Medication Therapy Management
  o International Travel Medicine
  o Immunizations
  o Disease Management
• Diabetes Education
  o Health Screening Services
• CV health screening – BP and lipid monitoring
• Bone density scanning
• Diabetes screening—HbA1c, glucose
  o Dispensing
• Staffing requirement will average 8 hours per week

Leadership & Management

• Resident Pharmacist will be given opportunity to gain experience and develop skills in marketing, management, and obtaining reimbursement for clinical services and innovative strategies.
• Participate in local, regional and national pharmacy conferences to gain leadership skills.
• Resident will assist in further development of the residency program for future Resident Pharmacists.

Education

• The Resident Pharmacist will help precept interns and 4th year rotation students.
• The strong affiliation with the University of Washington School of Pharmacy allows for guidance, mentorship, and teaching opportunities with university faculty.
• Provide in-service educational activities to healthcare providers.

Research

• Residents prepare a practice-based research project that incorporates the interests of the resident and future plans of Bartell Drugs.
  o The project will involve IRB application submission, a presentation at Western States Conference, and manuscript submission.
  o Research findings and future implementation plans will be presented to the pharmacy department and other corporate executives at Bartell Drugs.
