OUR MISSION

LEADING THE FUTURE OF PHARMACY

INSTRUCTIONAL: We educate student pharmacists to work in partnership with other health professionals to provide accessible, compassionate, and integrative pharmaceutical care with the goal of enhancing patient outcomes. In addition, we provide high quality graduate and post-graduate education tailored to foundational and advanced training in the pharmaceutical, clinical and health outcomes sciences.

RESEARCH AND DISCOVERY: We provide scientific leadership through development of innovative research programs in the biomedical sciences, conduct basic, translational and outcomes research, and make informed decisions at preclinical, clinical and post-approval stages of drug discovery, development and implementation.

SERVICE: We serve patients and the wider community as committed and compassionate leaders in the use of our knowledge and discoveries to help develop and disseminate solutions to complex healthcare problems and promote the health and well-being of regional, national and global populations.
